

Presenter	Presentation Title	Poster Location
Marine Aubert	Participatory approaches with indigenous communities across NbS initiatives in New Caledonia – Lessons learnt from 8 years of practice	Indigenous Innovation and Leadership
Trent Auld	Cultural and ecosystem adaptation to protect culture and country from climate change impacts	Indigenous Innovation and Leadership
Phoenix Combe	Mapping and modelling summer and winter range use of the migratory Eastern Cape Churchill Caribou: Bridging trail cameras and community-based approaches	Indigenous Innovation and Leadership
Eyob Esatu	Adaptation of human-wildlife conflict mitigation innovations for climate resilience and sustainable biodiversity conservation: Maze National Park Ethiopia	Indigenous Innovation and Leadership
Lucy Kaiser	Te Kahu Huruuru o Kohikohi (The cloak of Kohikohi): Weaving a kaupapa Māori methodology for climate change research	Indigenous Innovation and Leadership
Alice Clara Rore	Beyond the waves, the mud, and the trees: Recognizing women's strength as a value-based adaptation opportunity	Indigenous Innovation and Leadership
Jessica Thorn	Perceived climate change impacts and adaptation responses in ten African mountain regions	Indigenous Innovation and Leadership
Trent Moraes	Haida-Māori indigenous climate leadership: Strengthening cross-Pacific adaptation strategies	Indigenous Innovation and Leadership
Bry Kopu	Indigenous wisdom guides contemporary climate adaptation strategies	Indigenous Innovation and Leadership
Marcelle Scadden	Risk without values: the necessity of including Indigenous perspectives in climate risk assessments	Indigenous Innovation and Leadership
Jieying Wu	Indigenous traditional cableway as a nature-based solution (NBS) for climate change adaptation in Taiwan	Indigenous Innovation and Leadership
Qiuyan Wu	Community-centred infrastructuring amongst Mongolian nomadic herders: implications for policies and practices in support of climate change adaptation	Indigenous Innovation and Leadership
Farema Yazdi	How do we strengthen adaptive capacity of local communities to extreme events in effective, inclusive and creative ways?	Indigenous Innovation and Leadership
Kiara Lasch	The physical solution space for global delta adaptation	Oceans, Islands, Futures
Aby Marsiyono	Blue Economy and Coastal Resilience: The Opportunity of Community-Led Ecotourism for Marine Conservation in Berau, Bird Head Seascape and Wakatobi.	Oceans, Islands, Futures
Seona Meharg	Bridging knowledge and practice: the Pacific Agrifood Futures initiative	Oceans, Islands, Futures
Valentina Nyame	Pushing the boundaries of coastal adaptation: Climate change, land scarcity and livelihood shift in Keta, Ghana	Oceans, Islands, Futures
Shane Orchard	Guidance on marine protected area (MPA) planning in a changing climate	Oceans, Islands, Futures
Thibaut Peterlini	Sphagnum fiber as a tool to mitigate coastal erosion	Oceans, Islands, Futures
Patrick Pringle	Grounding the Global Goal on Adaptation: Pacific Perspectives on MEL and Aligning the GGA with Local Realities	Oceans, Islands, Futures
Mariski Nirwan	Climate adaptation actions in the small islands of Wakatobi, Indonesia	Oceans, Islands, Futures
Florian Steig	The emerging global governing of sea level rise	Oceans, Islands, Futures
Linda Stevenson	Enhancing climate adaptation in the pacific: Science-policy contributions	Oceans, Islands, Futures
Marion Tétégan Simon	Projet Adaptation PA: A project to build awareness to coastal restoration and climate change adaptation	Oceans, Islands, Futures
Marion Tétégan Simon	Sedimentary dynamics of beach and dunes to assess a coastal restoration	Oceans, Islands, Futures
David Zvipore	Youth-Led Climate Adaptation and Coastal Resilience in Madang, Papua New Guinea	Oceans, Islands, Futures
Amy Armstrong	Unlocking funding for Pacific Islands ocean and coastal resilience	Oceans, Islands, Futures
Katrina Ceballos	Early lessons and experiences in building climate-resilient local health systems in coastal municipalities in the Philippines	Health Wellbeing and Future Generations
Lotsmart Fonjong	Climate change and livelihood nexus in Sub Sahara Africa: understanding the impact on women's health and local response	Health Wellbeing and Future Generations
Emilia Ganslandt	Power in differences? A literature review on intersectionality and just climate adaptation	Health Wellbeing and Future Generations
Darcy Glenn	Beyond heat and mosquitos: how climate change could impact primary healthcare access	Health Wellbeing and Future Generations
Buddhi Bahadur Adhikari	Climate justice in urban adaptation in Nepal: issues for children and young people in informal settlements	Health Wellbeing and Future Generations
Paula Holland	Measuring climate change impacts on Indigenous sociocultural wellbeing: a New Zealand case study	Health Wellbeing and Future Generations
Miranda Huston	Climate emotions of young people living in Aotearoa New Zealand: A national study (gender, age and ethnicity), and international comparison	Health Wellbeing and Future Generations
Mawera Karetai	The need for a National Food Strategy.	Health Wellbeing and Future Generations
Maitreyi Koduganti Venkata Isabella Lenihan-Ikin	Greener Cities, Happier People? Examining Wellbeing Outcomes of Home Gardening in India	Health Wellbeing and Future Generations
Luisa Leo Tupuana'i	Climate change impacts on health and wellbeing in Aotearoa New Zealand: a scoping review	Health Wellbeing and Future Generations
Sarah Lockwood	Navigating climate change adaptation: Wellbeing and agency in a Samoan diaspora	Health Wellbeing and Future Generations
	Maternal Inequity in Crisis: An examination of maternity care as experienced by midwives, women and their whānau during Cyclone Gabrielle	Health Wellbeing and Future Generations
Zoe Mason	Fostering Mental Well-Being & Biodiversity through Hauora in Wellington	Health Wellbeing and Future Generations
Heather McLeod	Combining social vulnerability indicators and extreme climate indices to inform action on climate change adaptation	Health Wellbeing and Future Generations
Tanzia Anjum	Health and environment: A time for solutions	Health Wellbeing and Future Generations
Susie Moloney	Enabling place-based adaptation: building capacity and empowerment through collaboration	Health Wellbeing and Future Generations
Sarala Pradhan	The Impact of Migration on the Social Capital and Cohesion in Four Different Research Sites in Bhutan, Weaving in the Context Of Climate Change as a Contributor to the Bhutanese Migration Trend	Health Wellbeing and Future Generations
Rochelle Schneider	How can Earth observation satellites, climate modelling, and digital twins of the Earth products support human health adaptation to climate change?	Health Wellbeing and Future Generations
Chandana Siriwardana	A Conceptual Framework for Disaster Resilience: Addressing Intersectional Vulnerabilities in Disadvantaged Communities	Health Wellbeing and Future Generations
Naitonal Public Health Service Te Waipounamu	Climate change and health – supporting local councils climate responses in Te Waipounamu	Health Wellbeing and Future Generations
Irfan Ullah	Empowering the next generation: youth leadership in climate change adaptation in Pakistan	Health Wellbeing and Future Generations
Geoffrey Wood	Totcus – The ocean that connects us: A growing school age student based climate adaptation project	Health Wellbeing and Future Generations
Elphin Joe	Assessing the effectiveness of Large, Medium, and Small Language Models in climate change adaptation evidence synthesis and systematic assessments	Health Wellbeing and Future Generations
Celeste Young	When worlds collide - the human face of climate change impacts	Health Wellbeing and Future Generations
Esperance Zossou	Gender analysis of the effects of institutional supports for adaptation and resilience to climate change: Evidence from vegetable farmers in Grand-Popo municipality in Benin republic	Health Wellbeing and Future Generations

Presenter	Presentation Title	Poster Location
Joanne Aley	Framing resilience: perspectives in a local government setting	Cities, Settlements and Infrastructure
Andrew Allison	Robust decision-making for adapting coastal infrastructure in an uncertain climate	Cities, Settlements and Infrastructure
Mitchell Anderson	From what, to so what: global review of adaptation evidence and how flawed spatial analysis fuels climate maladaptation	Cities, Settlements and Infrastructure
Irene Boles	Large Scale Interventions to preserve Kaituna South Dunedin amid climate change and rising sea levels	Cities, Settlements and Infrastructure
Francisco Javier Astorga Mendoza	Environmental impacts and trade-offs for New Zealand's Energy System: A LCA perspective for the present and future	Cities, Settlements and Infrastructure
Siwoo Baek	Beyond single-factor vulnerability: Exploring climate risk through intersectional and multi-layered vulnerability pathways	Cities, Settlements and Infrastructure
Avery Barnett	Powering through the storm: Estimating grid resilience using a power system cyclone impact model - a case study of Jamaica	Cities, Settlements and Infrastructure
Susanne Becken	Introducing the new origin-acclimatization based system of Heat Emergency Alerts for International Tourists (H.E.A.T)	Cities, Settlements and Infrastructure
Ali McArthur	Adaptation and private sector construction: how can we adapt?	Cities, Settlements and Infrastructure
Carl Morgan	'Mahia i te Taha o te Taiao Nature-based solutions'. NOTE: this resource is currently being developed, name is subject to change. We would love to lunch this resource at the conference.	Cities, Settlements and Infrastructure
Marta Olazabal	Transdisciplinary work for transformative monitoring, evaluation and learning for climate adaptation in 10 worldwide cities.	Cities, Settlements and Infrastructure
Jinhan Park	Assessment of climate adaptive capacity for heatwave polices	Cities, Settlements and Infrastructure
Gonzalo Pérez	Rural resilience, climate change and public management	Cities, Settlements and Infrastructure
Molly Powers-Tora	Climate knowledge is power: the development and application of tools to maximize Afulilo dam water storage for energy generation	Cities, Settlements and Infrastructure
Benjamin Preston	Help Wanted: Adapting Emergency Management to Manage the Climate Emergency in the United States	Cities, Settlements and Infrastructure
Yapa Mudiyansele Priyanganie Samarasinghe	Investigating the influence of urban land cover on microclimate: a case study in Christchurch, New Zealand	Cities, Settlements and Infrastructure
Waqas Ahmed Raza	Where do households relocate? Analyzing post-buyout resettlement pattern and vulnerability dynamics stemming from market-incentivized voluntary property buyout program	Cities, Settlements and Infrastructure
Linda Romanovska	Prevention is the best cure: REGILIENCE Maladaptation Self-assessment Tool	Cities, Settlements and Infrastructure
Vicente Sepúlveda-Figueroa	Energy security with underground hydrogen storage: a techno-economic analysis of long-term storage options for Taranaki, Aotearoa New Zealand	Cities, Settlements and Infrastructure
Aayush Shah	Out-migration and depopulation in Uttarakhand: trends, drivers, and policy imperatives	Cities, Settlements and Infrastructure
Jinho Shin	Integrating citizen co-analysis with PCSWMM modelling for urban flood risk: Simulating grate inlet blockages	Cities, Settlements and Infrastructure
Alexander Stelzer	Carbon-conscious greenspaces: the impact of lawn management on soil carbon in urban parks – a case study from Lahti, Finland.	Cities, Settlements and Infrastructure
Jessica Thorn	Climate justice and informal trader's access to urban green spaces	Cities, Settlements and Infrastructure
Bart van Bueren	Melbourne Afloat: ecological, social and circular	Cities, Settlements and Infrastructure
Gijs Van Den Dool	An online platform for indoor heat adaptation	Cities, Settlements and Infrastructure
Veronica Viduzzi	Resilient infrastructure: river side parks as a measure of climate change adaption in cities of the Uruguay River	Cities, Settlements and Infrastructure
David Worden	Economic valuations of future adaptation scenarios through GenAI imagery	Cities, Settlements and Infrastructure
Atoofa Zainab	Bridging climate services and infrastructure resilience: Strengthening private sector engagement through environmental impact assessment (EIA) frameworks in Caribbean small island states	Cities, Settlements and Infrastructure
Madison Zegeer	Adapting to climate uncertainty: Flexible hydropower and hydrogen storage strategies for a robust New Zealand grid	Cities, Settlements and Infrastructure
Yasuaki Hijioka	Advancing (Enhancing) Climate Adaptation Action in the Asia-Pacific region through Web-Based Platforms	Cities, Settlements and Infrastructure
Livia Hollins	Accelerating adaptation action in New Zealand – from global insights to a local reality check - collaborating, innovating and investing for a resilient future	Cities, Settlements and Infrastructure
Fuh-Hsiung Shih	Case Studies: The JW Eco-Technology System as a Global Climate Adaptation Model	Cities, Settlements and Infrastructure
Kades BEN MABIALA	Integrating Indigenous Knowledge Biodiversity and Urban Adaptation for Resilient Mangrove Ecosystems and Small Island Communities	Cities, Settlements and Infrastructure
Matthew Bradbury	Enhancing urban flood resilience: Integrating reduced impervious surfaces in housing developments	Cities, Settlements and Infrastructure
Logan Brunner	Cascading failures in a changing climate: Assessing impacts and recovery of our interdependent infrastructure	Cities, Settlements and Infrastructure
Kelsy Burns	How might divergent views on water futures be navigated to further social, cultural and environmental justice?	Cities, Settlements and Infrastructure
Judy Bush	Climate-biodiversity nexus: Integrated approaches to policies for adaptation and biodiversity in cities	Cities, Settlements and Infrastructure
Blanche Butera	The Adaptation Finance Gap, Investment Planning and Bankability – Lessons on Scaling up and Crowding in (Cross-cutting – Finance)	Cities, Settlements and Infrastructure
Pedro Henrique Campello Torres	Transdisciplinary and Co-Produced Pathways for Sustainable and Just Climate Adaptation: North-South Dialogues and Mutual Learning	Cities, Settlements and Infrastructure
Rafaella Canessa	When the water drops: Can New Zealand's energy system cope?	Cities, Settlements and Infrastructure

Presenter	Presentation Title	Poster Location
Mauricio Carvallo Aceves	Coastal flooding adaptation pathways across multiple objectives and climate scenarios in Surrey, Canada	Cities, Settlements and Infrastructure
Johanne Castro	Integrated policy and AI-assisted technology responses to extreme heat in urban environments	Cities, Settlements and Infrastructure
Soobin Cho	From Gray to Green: A SETS-Based Analysis of Climate Adaptation for Aging Populations in South Korea	Cities, Settlements and Infrastructure
Sadhbh Crean	Collaboration and co-creation in the sustainable energy transition: Community voice in innovation	Cities, Settlements and Infrastructure
Laurence Delina	Resilience in Heat: Policy-driven approaches to sustainable adaptation in urban and rural Southeast Asia	Cities, Settlements and Infrastructure
Gabriela Di Giulio	The interplay between adaptive capacity and distributive climate justice: challenges and opportunities for Brazilian cities	Cities, Settlements and Infrastructure
Sophie South	Nature-based solutions for flood mitigation - Case Study: Cobden, New Zealand	Cities, Settlements and Infrastructure
Tamer Elshayal	Grounding adaptation in cities of the Global South: Framings of urban climate adaptation in the context of informality, the case of Egypt	Cities, Settlements and Infrastructure
Hayam Elshirbiny	Individual climate change adaptation in Aotearoa New Zealand: determinants and barriers	Cities, Settlements and Infrastructure
Mathilda Englund	Operationalizing epistemic injustice: Framework and metrics for evaluating knowledge co-production processes in climate change adaptation	Cities, Settlements and Infrastructure
Migel Estoque	ClimateWise – Addressing the adaptation gap for small and medium enterprises	Cities, Settlements and Infrastructure
Meisy Fortunatus	Learnings from past lockdown-derived demand patterns to inform future energy adaptation studies	Cities, Settlements and Infrastructure
Joanna Fountain	'Coming, ready or not!': Are tourist destinations adapting to climate change risks? A case study from Aotearoa New Zealand	Cities, Settlements and Infrastructure
Mahendra Gooroochurn	Innovative nature-based and adaptive passive measures for the design of circular infrastructures in the built environment	Cities, Settlements and Infrastructure
Martijn Gough	Overcoming adaptation planning challenges: a framework for effective climate adaptation	Cities, Settlements and Infrastructure
Ananya Goyal	Monetizing climate adaptation infrastructure from insurance markets for resilient development	Cities, Settlements and Infrastructure
John Handmer	Understanding stakeholder discourses for adapting to the increasing wildfire risk	Cities, Settlements and Infrastructure
Manabu Watanabe	Development of a web-GIS tool for visualising the impact of climate change around the world for policy makers of local governments	Cities, Settlements and Infrastructure
Liam Dunn	Atelier South, Ōtepoti Summer School 2025 - an exploration of urban climate change resilience, adaptation, and mitigation strategies in Kaituna, South Dunedin	Cities, Settlements and Infrastructure
Franziska Stefanie Hanf	A novel framework for assessing the plausibility of sustainable climate change adaptation in cities	Cities, Settlements and Infrastructure
Adrian Healy	Whose pathway? Household agency in mobilising adaptation pathways for urban water resilience	Cities, Settlements and Infrastructure
Charlotte Holland	Enhancing dynamic adaptive pathways for flood resilience: Integrating co-benefits trade-offs, and community values in decision-making	Cities, Settlements and Infrastructure
Nicolas Hübner	Enhancing climate adaptation planning with limited resources: a streamlined framework for municipal climate risk assessments	Cities, Settlements and Infrastructure
Farrah Jahangeer	Exploring local flood risk knowledge and adaptation capacity in high-risk zones in small island state: a case study from mauritius	Cities, Settlements and Infrastructure
Janina Jasper	Exploring the social impacts of consumer flexibility in energy systems: Equity and social justice implications of a comparative case study	Cities, Settlements and Infrastructure
David Jewkes	Foregrounding rail workforce health and wellbeing in a changing climate	Cities, Settlements and Infrastructure
Francois Jost	Co-evaluating and refining citizen engagement methods to enhance participation in climate adaptation through collaboration between citizens and local stakeholders	Cities, Settlements and Infrastructure
Taehyun Kim	Setting and managing climate resilience improvement zones considering regional conditions	Cities, Settlements and Infrastructure
Maitreyi Koduganti Venkata	Greener cities, stronger futures: a science-based approach to urban biodiversity	Cities, Settlements and Infrastructure
Gillian Lawson	Adapting the terraqueous landscape through making the invisible visible	Cities, Settlements and Infrastructure
Vosawale Lesuma	Everyday adaptation to flooding in the informal settlements of Suva, Fiji	Cities, Settlements and Infrastructure
Juan Liang	Investigating the attitudes towards climate change of residents in the Nelson-Tasman region, New Zealand	Cities, Settlements and Infrastructure
Sharon Feliza Ann Palma Macagba	Resilience in the Heat: Coping strategies of low-income urban communities in Southeast Asia	Cities, Settlements and Infrastructure
Md Juel Mahmud	Political drivers and socio-economic challenges in developing secondary cities for climate migrants in Bangladesh	Cities, Settlements and Infrastructure
Fuh-Hsiung Shih	JW Eco-Technology System as a Global Climate Adaptation Solution: A Case Study of Zhangjiakou City	Cities, Settlements and Infrastructure
Deborah Sobanke	Spatio-temporal analysis of heat stress in Lagos, Nigeria	Cities, Settlements and Infrastructure
Nara Muir	Atelier South, Otepoti Summer School 2025 - an exploration of urban climate change resilience, adaptation, and mitigation strategies in Kaituna, South Dunedin	Cities, Settlements and Infrastructure
Olivia Wilton	Atelier South, Otepoti Summer School 2025 - an exploration of urban climate change resilience, adaptation, and mitigation strategies in Kaituna, South Dunedin	Cities, Settlements and Infrastructure
Oakley Wynyard	Atelier south, Otepoti summer school 2025 - an exploration of urban climate change resilience, adaptation, and mitigation strategies in Kaituna, south Dunedin.	Cities, Settlements and Infrastructure
Catherine Phillips	Insights about human-tree relationships and urban forest governance from the Melbourne 'email-a-tree' initiative	Cities, Settlements and Infrastructure

Presenter	Presentation Title	Poster Location
Tara Bartnik	Climate adaptation for water security and ecosystem health – integrating climate risk, nature-based solutions, traditional practices, sustainable agriculture and water governance	Food, Water and Biodiversity Nexux
Ana Maria Bertolini	A conceptual framework for urban and peri-urban agriculture as a nature-based solution for climate adaptation in the global south	Food, Water and Biodiversity Nexux
Drew Bingham	A climate change action plan for conservation	Food, Water and Biodiversity Nexux
Nick Cradock-Henry	“Climate Adaptation is a Group Project”: Who’s in Charge, What’s (not) getting done, and Why?	Food, Water and Biodiversity Nexux
Madiha Chowdhury	Rightsizing locally led adaptation (LLA) for sustainable and resilient agricultural systems	Food, Water and Biodiversity Nexux
Sarah Connors	Enhancing Earth observation to track progress towards the global goal on adaptation	Food, Water and Biodiversity Nexux
Lexi Daoussis	Mobilising values in rights: Power, nature, and legal decisions	Food, Water and Biodiversity Nexux
Anthony Esabu	Assessing farmers’ contribution to greenhouse gas emission and the impact of adopting climate-smart agriculture on mitigation	Food, Water and Biodiversity Nexux
Jessica Fanzo	Governance and resilience as entry points for transforming food systems	Food, Water and Biodiversity Nexux
Ivee Fuerzas	“Brewing trouble:” Assessing the hazards and vulnerabilities threatening the Philippine coffee supply	Food, Water and Biodiversity Nexux
Catalina Gonda	A participatory modelling approach to support adaptation planning in an Australian forest landscape	Food, Water and Biodiversity Nexux
Roshni Gurung	What has happened to our lake? The story of Kahphuche Lake in a warming world	Food, Water and Biodiversity Nexux
Baptiste Hamon	Historical and Future Agroclimatic Suitability of Agricultural Products across New Zealand	Food, Water and Biodiversity Nexux
SM Munjirul Hannan Khan	Empowering communities for climate resilience: gender-responsive strategies in food security, water management, and biodiversity conservation	Food, Water and Biodiversity Nexux
Paula Holland	Planning for change – managing coastal realignment in pastoral landscapes in the face of sea-level rise-induced rises in groundwater and flood risk	Food, Water and Biodiversity Nexux
Sumitra K C	Opportunities for groundwater irrigation: Policy and economic perspective from Rani Jamara Kulariya Project in Nepal	Food, Water and Biodiversity Nexux
Nicholas Kirk	Agents of change for climate adaptation on land in Aotearoa New Zealand.	Food, Water and Biodiversity Nexux
Shalander Kumar	Institutionalizing climate change adaptation in indian agriculture: approach, innovations, learnings, gaps and potential pathways	Food, Water and Biodiversity Nexux
Henry Lane	Predicting marine diseases: Readiness to adapt and respond	Food, Water and Biodiversity Nexux
Deepak Deepak	Smart farming for a sustainable future: Maximizing yields, soil health, and climate resilience in Western Indo-Gangetic Plains of India	Food, Water and Biodiversity Nexux
Dhananjoy Dutta	Climate variability in rain-fed farming of India: findings and coping strategies	Food, Water and Biodiversity Nexux
Raymond Kabo	Enhancing environmental information for climate-resilient agriculture in the Senegal River Valley.	Food, Water and Biodiversity Nexux
Catherine Kilelu	Bridging gender-responsive indigenous knowledge and digital twins for agricultural resilience in climate change hotspots in Kenya	Food, Water and Biodiversity Nexux
Dolores Kouakou	Assessment of future climatic extremes in cocoa-growing areas in Côte d'Ivoire	Food, Water and Biodiversity Nexux
Adriana Martin	Financing just transitions: Carbon markets, local knowledge, and biodiversity protection in overlooked ecosystems in the global south	Food, Water and Biodiversity Nexux
Gina Maskell	On the use of remote sensing and household panel data to track progress on autonomous adaptation under the UNFCCC’s Global Stocktake: evidence in a coffee farming system	Food, Water and Biodiversity Nexux
Collins Matiza	Attributing vegetation dynamics to anthropogenic climate change: insights from satellite data and climate data	Food, Water and Biodiversity Nexux
Katsuhiro Nakao	Assessment of climate change adaptation measures using storyline analysis in the conservation and sustainable use of forest resources.	Food, Water and Biodiversity Nexux
Yen Nguyen	Coping with Droughts in agriculture of Northwest Vietnam	Food, Water and Biodiversity Nexux
Yen Nguyen	Enhancing sustainability of aquaculture for adapting to climate change at Xuan Thuy National Park	Food, Water and Biodiversity Nexux
Lucy Njuguna	Integrating diverse methods and knowledge systems for robust assessments of adaptation in Africa’s agri-food systems	Food, Water and Biodiversity Nexux
Olubunmi Adebola Olanipekun	Empowering Rural Communities through Adult Education for Sustainable Food, Water, and Land Security in Nigeria	Food, Water and Biodiversity Nexux
Joel Onyango	Building pathways for valorisation in dairy processing	Food, Water and Biodiversity Nexux
Alberto Pascual	Resilience action plan for Santa Maria Watershed	Food, Water and Biodiversity Nexux
Udara Piyathilake	Multi-criteria decision-making framework for landscape rehydration projects	Food, Water and Biodiversity Nexux
Adedoyin Bello	Spatio - temporal assessment of agricultural drought in Kwara state, Nigeria: causes, impact, and mitigation strategies	Food, Water and Biodiversity Nexux
Gizachew Kebede Biratu	Soil moisture retention through crop rotation and use of organic fertilizer to offset yield loss from rainfed agriculture in Ethiopia	Food, Water and Biodiversity Nexux

Presenter	Presentation Title	Poster Location
Jose Guarin	Simulating the productivity of opportunity crops across Africa under climate change	Food, Water and Biodiversity Nexux
Simon Kairu	Integration of Callindra calothyrys, Hass avocado, and beekeeping for sustainable land restoration and economic gains	Food, Water and Biodiversity Nexux
Katharina Ruckstuhl	Political driving Forces' and Landscape Change on Te Pataka o Rakaihautū/Banks Peninsula	Food, Water and Biodiversity Nexux
Nawraj Sapkota	Urban food system and climate change	Food, Water and Biodiversity Nexux
Lea Schröder	Interdisciplinary assessment of excessive precipitation as agricultural adaptation barrier in the Brazilian Amazon	Food, Water and Biodiversity Nexux
Roderick Valones	Integrating gendered-environmental social and governance (G-ESG) considerations in cacao farming enterprise and birds' biodiversity conservation	Food, Water and Biodiversity Nexux
Catherine van der Meulen	Nature-based solutions transformation journey NZ2120: A joint exploration on building climate resilience with nature-based solutions	Food, Water and Biodiversity Nexux
Kari Vigerstol	Accelerating Adaptation: The promise and limitations of nature-based solutions in the race to adapt to increased flooding and droughts	Food, Water and Biodiversity Nexux
Grace Villamor	Enhancing tree species diversity in plantation forests amidst climate change scenarios – Utilising portfolio approach	Food, Water and Biodiversity Nexux
Rebecca Voisin	From global agendas to place-based needs - more-than-human sustainability assessments for agriculture: a methodological approach for scaling deep.	Food, Water and Biodiversity Nexux
Laura Whitford	Advancing adaptation and resilience of livelihoods for natural resource reliant communities through territorial financing strategies	Food, Water and Biodiversity Nexux
Portia Adade Williams	Enhancing governance in Ghana's national climate change policy: Stakeholder networks in smallholder agriculture	Food, Water and Biodiversity Nexux
Henri Zoungrana	Optimal crop diversification on Sub-Saharan African farms in response to climate change: Evidence from Burkina Faso, Nigeria, Ethiopia, Malawi, Tanzania and Uganda	Food, Water and Biodiversity Nexux
Melissa Boo	Helpless and hopeless, or empowered actors? Understanding the emotions and experiences of undergraduate environmental students in Aotearoa New Zealand	The Arts of Adaptation, Communication and Education
Emily C Lazare	(Re)presenting Papa: a Māori perspective on language use and sustainability discourse	The Arts of Adaptation, Communication and Education
Johanne Castro	Exploring the influence of information and communication technologies (ICT) on extreme heat awareness, perception, and behaviour among young people	The Arts of Adaptation, Communication and Education
Hannah Bayne	Tuning in to climate emotions: A musical community-based participatory research project for addressing eco-anxiety and eco-grief	The Arts of Adaptation, Communication and Education
Nury Bermudez	Theatrical experiences to raise awareness among children and adolescents about climate risks in Chile and Ecuador	The Arts of Adaptation, Communication and Education
Lethabo Chilwane	The role of local knowledge in support of local government's response to climate change	The Arts of Adaptation, Communication and Education
Kendrick Hardaway	Risk, resilience, vulnerability, and adaptation in city climate plans: A review of terms	The Arts of Adaptation, Communication and Education
Sarah Harrison	Communicating complexity: wellbeing and adaptation in South Dunedin	The Arts of Adaptation, Communication and Education
Niva Kay	Visualising desirable sustainable futures in video games	The Arts of Adaptation, Communication and Education
AnaCapri Mauro	A collaborative adaptation game for promoting climate action: Minions of Disruptions™	The Arts of Adaptation, Communication and Education
Annabel Mcaleer	Building mission-led science communication and engagement capability: Lessons from New Zealand's national science challenges	The Arts of Adaptation, Communication and Education
Steve Mewes	Act to Adapt: Building climate resilience through community-based adaptation (CBA) across Somerset, UK	The Arts of Adaptation, Communication and Education
Angela Sutherland	Using visual art to engage communities in climate change adaptation planning	The Arts of Adaptation, Communication and Education
Kayleigh Chaston-Vickers	Beyond technical upskilling: Human skills, inner development, & the hidden labour of building a climate-ready workforce	The Arts of Adaptation, Communication and Education
Susannah Olssen	Barriers to engagement for climate-conscious youth	The Arts of Adaptation, Communication and Education
Rebecca Thomas	Unlock research benefits with illustrated fieldwork journals: a beginner's hands-on workshop	The Arts of Adaptation, Communication and Education
Cassandra Troy	Communicating the complexity of climate solutions: Effects of limitations information in renewable energy news	The Arts of Adaptation, Communication and Education
Veronica Viduzzi	Youth and climate action in riverside cities	The Arts of Adaptation, Communication and Education
Nury Bermudez	Recovering the collective memory of disasters to raise awareness of the importance of adaptation to climate change: The storytellers initiative	The Arts of Adaptation, Communication and Education
Udari Wijeweera	Modernising agricultural education: blended learning and experiential approaches for teaching sustainable agri-business and entrepreneurship	The Arts of Adaptation, Communication and Education
Omonlola Nadine Worou	Profitability analysis of climate-smart agricultural practices among smallholder farmers: evidence from cowpea, millet, and groundnut growers in Senegal	The Arts of Adaptation, Communication and Education
Sofia Yahou	Les femmes libres dans leurs potentiel de l'entreprenariat durable	The Arts of Adaptation, Communication and Education
Kerstie Zandvoort	Seasonal rhythms in practice: Relating localised experiences of seasons to organized responses to changing climates	The Arts of Adaptation, Communication and Education

Presenter	Presentation Title	Poster Location
Lasmit Cerón	Nature-based solutions for climate adaptation pathways of rural livelihoods in Central America: An approach based on socio-ecological systems	Beyond Adaptation
Blessing Charuka	Beyond adaptation: the politics of climate adaptation and engineered systemic barriers in climate and coastal adaptation	Beyond Adaptation
Madiha Chowdhury	Enhancing regional cooperation for transformative adaptation in the Asia-Pacific: Key barriers, enablers, and policy insights	Beyond Adaptation
Aboubacar Diallo	Adoption and impact of climate information services on smallholder farmers' yield, income and food security in rice-based systems in Mali	Beyond Adaptation
Saleh Ahmed	Land and Climate Justice Among Historically Marginalized Populations in Coastal Bangladesh: Unpacking the Complexities and Opportunities of Climate Resilient Development Pathways	Beyond Adaptation
Prapti Barooah	Greener fields, fewer hands? Navigating the promise and pitfalls of mechanized direct seeded rice for sustainable and equitable farming	Beyond Adaptation
Devdyuti Bose	Quantifying residual loss and damage by Super Cyclone Amphan 2020 in South Twenty-Four Parganas, a coastal Indian district	Beyond Adaptation
Fernanda Haverbeck	Fractal agency in practice: What motivates agents and their transformative actions in response to drought in the Aconcagua Valley?	Beyond Adaptation
Raisa Imran	Beyond adaptation: empowering women through community-based climate resilience in Southern Bangladesh	Beyond Adaptation
Yvette Kerslake	New roadmap for climate change research in the Pacific	Beyond Adaptation
Alexandra Krendelsberger	Re-framing farmer-herder relations in the face of climate change: Case study from Senegal	Beyond Adaptation
Florence Muhanguzi Kyoheirwe	Empowerment of Women Smallholder Farmers and adaptation to climate change shocks in the global South: Experiences from Uganda	Beyond Adaptation
Jonatan Lassa	Barriers to adaptive social protection: missing links from warning system to decision-making	Beyond Adaptation
Ruth Magreta	Meso-level organizations as catalysts for transformative, gender-sensitive climate change adaptation	Beyond Adaptation
Deissy Martinez-Baron	Trust, support, and knowledge sharing: the role of social capital to scale climate smart agriculture	Beyond Adaptation
Colin D Meurk	Creative transitions to sustainable futures	Beyond Adaptation
Dorine Odongo	Towards Gender Responsive and Equitable Climate Action for Resilient Agrifood Systems: Strategies and Lessons from Africa	Beyond Adaptation
Joel Onyango	Innovation as a configuration that works: the case of adaptation for dairy development in East Africa	Beyond Adaptation
Dhriti Pathak	Locally led adaptation action and its convergence with the GGA: An initial assessment	Beyond Adaptation
Ragini Rajbhor	Climate Justice in India: The role of Law, Insurance and Reparations in addressing irreversible Loss	Beyond Adaptation
Adil Said	The Oases and the climate change in Morocco: Unique model of sustainability and human development	Beyond Adaptation
Palash Sanyal	Conflict-Sensitive Adaptation: Integrating Governance and Resilience Strategies in Climate-Vulnerable Regions	Beyond Adaptation
Abidah Setyowati	Scaling up locally led climate action in Asia and Pacific	Beyond Adaptation
Bhaskar Sinha	Climate Risk-Induced Loss and Damage in Kerala's Traditional Fisheries	Beyond Adaptation
Skye Smith	Designing for community-led behavioural change: Place-based and repair-led approaches to climate adaptation.	Beyond Adaptation
Gauri Sreekumar	Weathering crisis: governance, political links, and migration amid drought in rural India	Beyond Adaptation
Ma Suza	Beyond adaptation: lessons from a climate adaptation project in coastal Bangladesh	Beyond Adaptation
Sintayehu Tilahun	Invasion to innovation: turning climate challenges into opportunities	Beyond Adaptation
Karan Titus	Exploring carbon dioxide removal to enable joint adaptation-mitigation initiatives for climate resilient development in Aotearoa New Zealand	Beyond Adaptation
Dharam Raj Uprety	Developing rainfall-based landslide thresholds for Nepal's early warning systems	Beyond Adaptation
Jeremy Webb	Creating a taxonomy to support the adaptive management of adaptation policies and plans	Beyond Adaptation
Saskia Werners	Beyond Adaptation: A vision on adaptation post 2030	Beyond Adaptation
Liang Emlyn Yang	Dynamics of social resilience to flood hazards in the Mekong basin	Beyond Adaptation
Celeste Young	Working with systemic risk - learning as we go	Beyond Adaptation
Andrea Zamora	Bridging the gap: Enhancing usability and scaling of climate and weather products for agriculture through local expertise	Beyond Adaptation
Maya James	Atelier South, Otepoti Summer School 2025 - an exploration of urban climate change resilience, adaptation, and mitigation strategies in Kaituna, South Dunedin	Beyond Adaptation
Hendrick Kaniki	Local community-based organization, Sirubai Voko Tribe Association, collaborates with WWF Solomon Islands in doing sea grape management for sustainable harvesting and value added initiatives.	Beyond Adaptation
Alex Weir	Atelier South, Otepoti Summer School 2025 - an exploration of urban climate change resilience, adaptation, and mitigation strategies in Kaituna, South Dunedin	Beyond Adaptation
Charlotte Kabaseke	Strengthening women's right to participation in climate change adaptation in Africa	Beyond Adaptation
